DATE: November 16, 2017

SUBJECT: AGENDA ITEM NO. XVII

CONSIDER ALL MATTERS INCIDENT AND RELATED TO DECLARING EXPECTATION TO REIMBURSE EXPENDITURES WITH PROCEEDS OF FUTURE DEBT, INCLUDING THE ADOPTION OF A RESOLUTION PERTAINING THERETO

ISSUE

Consider and act upon a reimbursement resolution on behalf of the City of Princeton for improvements to the City's water system.

BACKGROUND

The City of Princeton staff approached the Authority staff requesting assistance in financing and constructing improvements to the City's water system, including a 4.0 MG ground storage tank, yard piping, pump station, electrical/SCADA/instrumentation, plumbing/HVAC, meters and all appurtenances necessary for the projects. The City of Princeton is growing rapidly and the need has arisen for them to upgrade their existing water delivery infrastructure to continue to meet their demands.

At the July 2017 meeting, the Board authorized the submission of an application on behalf of the City of Princeton for financial assistance to the Texas Water Development Board's ("TWDB") Drinking Water State Revolving Fund ("DWSRF").

Hard costs on a construction project are considered to be items such as land, materials and construction labor. If any of these costs are incurred ahead of the bond closing with the intention of reimbursing the expense, federal law requires that a reimbursement resolution be adopted by the governing body which would allow the Authority to reimburse the City for hard costs up to 60 days prior to adoption of the reimbursement resolution.

BACKGROUND

The City of Princeton purchased a property on October 11, 2017. This is the property on which we are planning to construct the new pump station and ground storage tank. In order for the City to be reimbursed for these costs by the upcoming bond issue, the adoption of reimbursement resolution will be necessary.

STAFF RECOMMENDATIONS

The staff recommends that the Board authorize the adoption of a reimbursement resolution on behalf of the City of Princeton in order for the City to be reimbursed for their land purchase associated with the ground storage tank and pump station project.

ATTACHMENTS

A resolution is attached.
